Seattle, WA

Phone: +1(206)6695568 | Email: [sakthiloganathan1127@gmail.com](mailto:sakthiloganathan1127@gmail.com)

LinkedIn: <https://www.linkedin.com/in/sakthipriya-loganathan/> | GitHub: <https://github.com/SPloganathan> |

Portfolio: <https://sploganathan.github.io/my-portfolio/>

Well-qualified Full Stack Web Developer familiar with a wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of the process with ease. Earned a certificate in **Full stack Web Development** from the **University Of Washington**. Strength in creativity, teamwork, and building projects from ideation to execution.

## TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, GitHub, Node, jQuery, Bootstrap, SQL, Express.js, OOP, MVC, NoSQL(MongoDB), Progressive Web Application, React

## PROJECTS

**Luv-2-h8** | <https://github.com/SPloganathan/luv-2-h8> | <https://luv-2-h8.herokuapp.com/>

- **Summary:** This is an Interactive Full-Stack Application for creating negative posts/reviews with complaints regarding any place or business. The motivation was to practice collaborative skills, coding abilities and knowledge. The aim was to create a blog site similar to Yelp, where users can publish a claim to anything - this is a world for the real "haters". So other haters/users could look through the blog and give likes/dislikes to the posts.
- **Core Responsibilities:** Sole author in developing the whole server route for this project along with few UI and Google map integration.
- **Tools:** HTML, CSS, Bulma, Javascript, MySQL, Sequelize, Handlebars.js, Node.js, Express, Dotenv, Bcrypt, Heroku, GitHub, Passport.js, Cloudinary, Google Maps API.

**Marvel-movies-3000** | <https://github.com/SPloganathan/marvel-movies-3000> | <https://sploganathan.github.io/marvel-movies-3000/>

- **Summary:** Marvel-Movies-3000 allows the user to search for movies and characters related to the Marvel universe which will in turn provide us with a full movie description, movie posters, rating of the searched movie and full character details.
- **Core Responsibilities:** Sole author in developing the whole javascript part for this project.
- **Tools:** HTML, CSS, JavaScript, jQuery, Foundation, API.

**Markdown-readme-generator** | <https://github.com/SPloganathan/markdown-readme-generator> | <https://www.npmjs.com/package/markdown-readme-generator/>

- **Summary:** When creating an open source project on GitHub, it's important to have a high-quality README for the app. This should include what the app is for, how to use the app, how to install it, how to report issues, and how to make contributions—this last part increases the likelihood that other developers will contribute to the success of the project.
- **Core Responsibilities:** Sole author in developing the whole project.
- **Tools:** Node.js, Inquirer, JavaScript.

**Weather-forecast** | <https://github.com/SPloganathan/weather-forecast> | <https://sploganathan.github.io/weather-forecast/>

- **Summary:** A Weather dashboard that will run in the browser and feature dynamically updated HTML and CSS. A third-party APIs is used to access data and functionality by making requests

with specific parameters to a URL. Weather dashboard is displayed with the city name and its current and future weather forecast details.

- **Core Responsibilities:** Sole author in developing the whole project.
- **Tools:** HTML, CSS, JavaScript, jQuery, Bootstrap, API.

## EXPERIENCE

Over 5 years of extensive experience as a **Business Analyst**. Proficient in SDLC in **Agile** and **Waterfall methodologies**. Facilitated **Manual Testing** which includes **Test Plan, Test Cases, Defect reporting and Tracking**. Seeking now a change in gears back to my first love for software developing where I can apply my problem-solving and software expertise and to learn more on software developing.

**Client:** Department of Children, Youth & Families, Olympia, WA.

**Responsibility:** Business Analyst.

- **Summary :** **The Department of Children, Youth & Families** provides services that support children and families to build resilience and health, and to improve educational outcomes. It also strives to provide protection to children by addressing issues like child abuse, neglect and abandonment of a child. The Platform needed to be enhanced to make the channels work more efficiently and address the issues within an optimal time.
- **Core Responsibilities:** Designed the **Business requirement** collection approach based on the project scope and Agile Methodology. Used **SQL Queries** for checking data tables on the server. Worked with the QA team through the **Testing Cycle** to verify complete and rigorous testing of requirements.

**Client:** Wells Fargo, San Francisco, CA

**Responsibility:** Business Analyst.

- **Summary :** **Wells Fargo** is one of the largest diversified financial services companies in the US with operations around the globe. To ensure timely availability of information, the client's trade management system was needed to be accessible to its customers anywhere in the world throughout the day basis to support multiple business areas including **Asset Management, Portfolio Management** and **Risk Management**. To achieve this, the firm decided to enhance its technology platforms.
- **Core Responsibilities:** Worked with the **Senior Business Analyst and Stakeholders** to develop a detailed understanding of the requirements and prepared a comprehensive set of documents to define the specifications and business value of the system. Conducted **JAD sessions** to develop solutions that meet the business requirements, resolve open issues, and change requirements.

## EDUCATION

- Full Stack Web Development Certificate: **University of Washington, Seattle, WA**  
A Industry-Driven Full Stack Curriculum program focused on gaining technical programming skills in HTML, CSS, jQuery, Bootstrap, Node.js, MySQL, MongoDB, Express.js, React.js.
- Diploma in Fashion Designing, Bangalore, India.
